INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
Massachusetts Municipal Wholesale Electric Company
Ludlow, Massachusetts

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities of Massachusetts Municipal Wholesale Electric Company (the Company) which comprise the statements of net position as of December 31, 2013 and 2012, and the related statements of revenues, expenses and changes in net position and cash flows for the years then ended and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities of Massachusetts Municipal Wholesale Electric Company as of December 31, 2013 and 2012, and the changes in its net position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

Change in Accounting Principle

As discussed in Note 1 to the financial statements, in 2013, the Company adopted the new accounting guidance pursuant to Governmental Accounting Standards Board ("GASB") Statement No. 65, *Items Previously Reported as Assets and Liabilities*. Accounting changes adopted to conform to the provisions of this Statement were applied retroactively by restating financial statements for all periods presented. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America for state and local governments require that the management's discussion and analysis and the schedules of funding progress and employer contributions, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the GASB who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the management's discussion and analysis for the year ended December 31, 2011 that the accounting principles generally accepted in the United States of America for state and local governments require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by GASB who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audits were conducted for the purpose of forming an opinion on the basic financial statements as a whole. The supplementary information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Massachusetts Municipal Wholesale Electric Company

Management's Discussion and Analysis (unaudited)
Years Ended December 31, 2013 and 2012

The following discussion and analysis of the Massachusetts Municipal Wholesale Electric Company (MMWEC) provides an overview and analysis of MMWEC's financial performance during the years ended December 31, 2013 and 2012. This discussion and analysis should be read in conjunction with MMWEC's financial statements and the accompanying notes.

OVERVIEW OF THE FINANCIAL STATEMENTS

MMWEC is a public corporation and a political subdivision of the Commonwealth of Massachusetts formed to be a joint action agency to develop a bulk power supply for its member Massachusetts cities and towns having municipal electric systems (Members) and other utilities, both private and public. Among other things, MMWEC is authorized to construct, own or purchase ownership interests in energy facilities and to issue revenue bonds for such purposes. MMWEC's ownership interest in energy generation facilities is through various Projects. Pursuant to its General Bond Resolution (GBR), the bonds of any bond issue relating to a Project are secured solely by revenues derived from that Project. Project revenues are derived primarily from Power Sales Agreements (PSAs) with MMWEC's Members and other utilities that are Participants in a Project (Project Participants). MMWEC's bulk power supply program consists of power purchase arrangements, power brokering services, planning and financial services, and the Projects relating to generating facilities built and operated either by MMWEC or other entities.

MMWEC has determined it has a fiduciary responsibility over two defined benefit pension plans that are provided to its employees. The financial statement presentation is of the business-type activities only and excludes the fiduciary fund financial statements for the defined benefit pension plans.

The accounting records of MMWEC are maintained using the Uniform Governmental Accounting Standards Board (GASB), the System of Accounts of the Federal Energy Regulatory Commission (FERC) and the Generally Accepted Accounting Principles of the United States (GAAP) using the economic resources measurement focus and the accrual basis of accounting. Application of the accounting methods for regulatory operations is also included in these financial statements. This accounting guidance relates to the deferral of revenues and expenses to future periods in which the revenues are earned or the expenses are recovered through the rate-making process, which is governed by the Board of Directors.

This annual report consists of two parts: Management's Discussion and Analysis (this section) and the basic financial statements. The Statements of Net Position report year-end assets and liabilities based on the original cost adjusted for any depreciation, amortization or unrealized gains/losses as appropriate. The Statements of Revenues, Expenses and Changes in Net Position present MMWEC's operating revenues and expenses incurred as a result of MMWEC's business activity. The Statements of Cash Flows report the cash provided and used for operating activities, as well as investing activities and capital and related financing activities.

MMWEC FINANCIAL ANALYSIS

An analysis of MMWEC's financial position begins with the review of the Statements of Net Position, the Statements of Revenues, Expenses and Changes in Net Position and the Statements of Cash Flows. A summary of MMWEC's Condensed Statements of Net Position is presented in Table 1. The Condensed Statements of Revenues, Expenses and Changes in Net Position is summarized in Table 2 and the Condensed Statements of Cash Flows is summarized in Table 3.

STATEMENTS OF NET POSITION

The majority of MMWEC's Statements of Net Position consists of the financial activity relating to various Projects, representing ownership interests in various electric generation facilities for which MMWEC has corresponding PSAs with each Project Participant. MMWEC's joint ownership interests are shown in Note 9 – Project Joint Ownership Agreements in the accompanying notes of the accompanying financial statements. The following analysis compares 2013 financial results to 2012 financial results.

Current assets, excluding the current portion of restricted funds, increased by \$10.8 million.

Cash and temporary investments decreased by \$19.7 million, primarily due to the decrease in Stony Brook Intermediate working capital funds for fuel oil purchases during 2013 and expenditures related to the Stony Brook Intermediate major fall outage, where the Unit 1C rotor was replaced in addition to other major maintenance performed. There were also timing differences in the Stony Brook Peaking and Intermediate portfolio, resulting in a corresponding increase in restricted special funds for investments with a maturity of greater than one year in the Stony Brook Peaking and Intermediate Projects of \$9.0 million.

The increase in accounts receivable and unbilled revenue of \$18.1 million is chiefly attributable to higher amounts billed due to higher average locational marginal prices for Massachusetts in December 2013 related to Member power purchases than at the same time in the prior year. Inventories increased \$12.3 million from the prior year due to approximately 154,000 barrels of fuel oil purchased for the Stony Brook Intermediate Project in 2013, offset by fuel burn in both of the Stony Brook Projects.

Current and noncurrent restricted funds, including related interest receivable, increased by \$0.7 million, primarily due to an increase of \$9.0 million in Stony Brook Intermediate and Peaking restricted funds as described above, and an increase of \$1.6 million in Seabrook Station operating reserve due to collections made in advance for the Spring 2014 refueling outage. These increases were offset by a decrease of \$4.9 million in Member power purchase working capital funds due to the higher average power prices in December 2013 as compared to December 2012 and a decrease of \$5.0 million in Millstone operating reserves due to expenditures paid for the refueling and maintenance outage in 2013.

Massachusetts Municipal Wholesale Electric Company

Management's Discussion and Analysis (unaudited)
Years Ended December 31, 2013 and 2012

STATEMENTS OF NET POSITION...continued

Noncurrent charges increased by \$10.7 million from 2012 to 2013, reflecting improved investment performance of and monthly contributions made to the nuclear decommissioning trust funds; higher market valuation of and increased contributions made to pension assets; higher advances made to the lead owners for the Project operating costs of the Millstone Projects offset by lower advances made to the lead owners for the Project operating costs of the Seabrook Projects.

In 2013, total capital assets had a net decrease of \$6.8 million due primarily to continued depreciation of \$16.3 million and continued amortization of nuclear fuel of \$12.0 million, offset primarily by net in-service asset and construction work in progress additions of \$11.6 million, net of asset retirements of \$0.3 million and net purchases of nuclear fuel of \$9.6 million.

The \$9.4 million increase in current liabilities, excluding current maturities of long-term debt, was attributable to increased collections for future planned maintenance and capital purchases for the Projects, which increased the amount of advances the Members and Project Participants had at MMWEC by \$8.5 million. In addition, accounts payable and accrued expenses decreased by \$3.3 million as payments to vendors for operational expenses were greater prior to year-end during 2013, whereas in the prior year, such payments were made after year-end. There were also increased draws on the lines of credit of \$4.2 million primarily due to fuel oil purchases made in the last quarter of 2013, which were funded through use of the line of credit, resulting in a higher short-term debt balance than in the prior year.

Long-term debt, including current maturities, decreased by \$65.4 million primarily due to principal payments and maturities on long-term debt made during 2013.

Other noncurrent liabilities, excluding long-term debt, increased \$71.9 million due to accretion of asset retirement obligations, and increases in amounts payable under the terms of the PSAs, which include temporary offsets of unbilled expenses, such as depreciation, unrealized gains/losses, and bond payment activity.

Deferred inflows of resources decreased by \$0.5 million due to amortization of the deferred gain on extinguishment of debt.

STATEMENTS OF REVENUES, EXPENSES AND CHANGES IN NET POSITION

The majority of MMWEC's Statements of Revenues, Expenses and Changes in Net Position consists of the financial activity relating to revenues and expenses from power purchases and the PSAs for the Projects. Project revenues are derived, primarily, from PSAs with Project Participants. Under all PSAs, the Project Participants are required to pay their respective shares of MMWEC's actual costs relating to the Projects, including debt service. Thus, MMWEC's revenues for an individual Project are dependent on debt service and the costs associated with that particular Project. Revenues for the individual Projects vary from year to year as the costs MMWEC incurs relating to a Project vary. MMWEC bills under the PSAs only the expenses and costs it incurs from the lead owner of the generating facility and its own expense associated with each Project plus certain other amounts required pursuant to MMWEC's General Bond Resolution.

Massachusetts Municipal Wholesale Electric Company

Management's Discussion and Analysis (unaudited)
Years Ended December 31, 2013 and 2012

STATEMENTS OF REVENUES, EXPENSES AND CHANGES IN NET POSITION...continued

For 2013, revenue increased by \$22.9 million due to higher power prices, higher generation in the Seabrook Station and Wyman Projects and increased fuel costs in the Stony Brook Intermediate Project, offset by lower generation in the Stony Brook Peaking and Millstone Projects. Purchased power expenses increased by \$23.2 million during 2013 as compared to 2012 due to more extreme temperatures than in the prior year and instability in the natural gas markets, resulting in increased power prices.

The \$6.5 million increase in fuel used in electric generation was driven by increased generation at Seabrook Station and Wyman and higher fuel costs at Stony Brook Intermediate, offset by decreased generation at Millstone. Millstone had a planned refueling and maintenance outage in 2013, whereas in the prior year Seabrook Station had a planned refueling outage. Stony Brook Intermediate utilized more fuel oil than natural gas for generation in 2013, resulting in higher overall fuel costs, despite lower generation than in the prior year.

Other operating expense increased \$0.9 million reflecting increased operations activity at Millstone and Stony Brook Intermediate due to planned outages in 2013.

Maintenance expense decreased \$2.6 million in 2013, primarily driven by Seabrook Station as only Millstone had a planned refueling and maintenance outage in 2013, whereas in the prior year Seabrook Station had a planned refueling and maintenance outages and the costs associated with the Seabrook Station outage were more significant.

In 2013, depreciation expense increased \$0.7 million. This was the result of higher depreciation from fixed asset additions offset by retirements during 2013.

The \$0.2 million decrease in taxes other than income was attributable to lower generation taxes paid due to the suspension of the generation tax at Millstone as of September 30, 2013, offset by slight increases to other property taxes paid during 2013.

Investment income, which is a result of varying fund balances and interest rates, increased by \$1.0 million in 2013, due to better investment performance in 2013 as opposed to 2012.

Interest expense decreased by \$3.1 million due to lower interest costs incurred in 2013 than in 2012 as a result of reduced long-term debt balances due to scheduled principal payments and maturities. Amortization expense decreased by \$1.0 million due to continued amortization of premiums and gains associated with various bond issues.

In 2012, MMWEC incurred \$0.9 million of debt issuance costs in connection with the issuance of the Series 2012A Bonds, which were expensed in the period paid. No bonds were issued during 2013 and thus, no debt issuance costs were paid.

The decrease in amounts payable under terms of the PSAs is discussed in Note 1 of the accompanying financial statements.

Massachusetts Municipal Wholesale Electric Company

Management's Discussion and Analysis (unaudited)
Years Ended December 31, 2013 and 2012

STATEMENTS OF CASH FLOWS

For purposes of the Statements of Cash Flows, cash equivalents are cash and investments having an original maturity of three months or less from the date of acquisition. Cash and cash equivalents decreased by \$23.7 million from 2012 to 2013. This is due to purchases of investments during 2013 and decreased operating cash due to timing of payments for operational activities in 2013.

DEBT SERVICE COVERAGE

For the PSAs' contract years ended June 30, 2013 and June 30, 2012, MMWEC met the GBR debt service coverage requirements for all of MMWEC's Projects. In accordance with the provisions of MMWEC's GBR, MMWEC covenants that it will fix, revise and collect rates, tolls, rents and other fees and charges sufficient to produce revenues to pay all Project operating and maintenance expenses as well as principal, premium, if any, and interest on the Bonds associated with each Project. Revenues for each Project, which include applicable interest earnings from investments associated with funds required to be maintained by the GBR, are required to equal 1.10 times the annual debt service for the PSA contract year ending June 30, after deduction of certain operating and maintenance expenses and exclusive of depreciation. Further details can be found in the Supplementary Information to the financial statements.

DEBT RATINGS

During 2013, following their annual credit review of MMWEC, two major credit rating agencies rated the MMWEC bonds as follows:

Investment Type	Standard & Poor's	Fitch Ratings
Nuclear Mix No. 1, Series 2011	A+	A+
Nuclear Project No. 3, Series 2011	A+	A+
Nuclear Project No. 4, Series 2011	A+	A+
Nuclear Project No. 5, Series 2011	A	A+

The accompanying notes are an integral part of these financial statements.

Massachusetts Municipal Wholesale Electric Company

Notes to Financial Statements

Years Ended December 31, 2013 and 2012

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND NATURE OF OPERATIONS

Reporting Entity/Nature of Business

The Massachusetts Municipal Wholesale Electric Company (MMWEC) is a public corporation and a political subdivision of the Commonwealth of Massachusetts formed to be a joint action agency to develop a bulk power supply for its member Massachusetts cities and towns having municipal electric systems (Members) and other utilities, both public and private. Among other things, MMWEC is authorized to construct, own, or purchase ownership interests in energy facilities and to issue revenue bonds for such purposes. MMWEC's ownership interest in energy generation facilities are through various Projects (Note 9). Pursuant to its General Bond Resolution (GBR), the bonds of any bond issue relating to a Project are secured solely by revenues derived from that Project. Project revenues are derived primarily from Power Sales Agreements (PSAs) with MMWEC's Members and other utilities who are Participants in a Project (Project Participants). MMWEC's bulk power supply program consists of power purchase arrangements, power brokering services, planning and financial services, and the Projects relating to generating facilities built and operated either by MMWEC or other entities.

A Massachusetts city or town having a municipal electric system, authorized by majority vote of the city or town, may become a Member of MMWEC by applying for admission and agreeing to comply with the terms and conditions of membership as MMWEC By-Laws may require. As of December 31, 2013 and 2012, twenty-one (21) Massachusetts cities and towns having municipal electric systems were Members.

MMWEC has determined it has a fiduciary responsibility over two defined benefit pension plans that are provided to its employees. The financial statement presentation is of the business-type activities only and excludes the fiduciary fund financial statements for the defined benefit pension plans.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The accounting records of MMWEC are maintained using the Uniform Governmental Accounting Standards Board (GASB), the System of Accounts of the Federal Energy Regulatory Commission (FERC) and the Generally Accepted Accounting Principles of the United States (GAAP) using the economic resources measurement focus and the accrual basis of accounting. Application of the accounting methods for regulatory operations is also included in these financial statements. This accounting guidance relates to the deferral of revenues and expenses to future periods in which the revenues are earned or the expenses are recovered through the rate-making process, which is governed by the Board of Directors.

Fair Value Measurements

MMWEC accounts for its assets and liabilities at fair value in accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*. MMWEC follows the established framework for measuring fair value, which is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. Fair value is generally determined by quoted market prices. Priority is given, within the measurement of fair value, to the use of market-based information over entity specific information and there is a three-level hierarchy for fair value measurements based on the nature of inputs used in the valuation of an asset or liability as of the measurement date.

Massachusetts Municipal Wholesale Electric Company

Notes to Financial Statements

Years Ended December 31, 2013 and 2012

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND NATURE OF OPERATIONS...continued

Fair Value Measurements...continued

The following is a synopsis of the fair value measurements.

Level 1 - Pricing inputs are quoted prices available in active markets for identical investments as of the reporting date. MMWEC does not adjust the quoted price for these investments, even in situations where MMWEC holds a large position and a sale could reasonably impact the quoted price.

Level 2 - Pricing inputs are quoted prices for similar investments, or inputs that are observable, either directly or indirectly, for substantially the full term through corroboration with observable market data. Level 2 includes investments valued at quoted prices adjusted for legal or contractual restrictions specific to these investments.

Level 3 - Pricing inputs are unobservable for the investment, that is, inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability. Level 3 includes private investments that are supported by little or no market activity.

The following table presents MMWEC's assets measured at fair value on a recurring basis as of December 31:

	2013			
	Level 1	Level 2	Level 3	Total
	(In Thousands)			
Investment and cash equivalents:				
U.S. Treasury Bills	\$ 39,277	\$ -	\$ -	\$ 39,277

Massachusetts Municipal Wholesale Electric Company

Notes to Financial Statements
Years Ended December 31, 2013 and 2012

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND NATURE OF OPERATIONS...continued

Fair Value Measurements...continued

The fair value of Level 1 instruments is based on quoted over-the-counter (OTC) market prices at December 31 for identical securities. The fair value of Level 2 instruments is based on quoted OTC market prices at December 31 for similar issues.

Fair Value of Financial Instruments

The carrying value of MMWEC's short-term financial instruments, which consist of cash, cash equivalents, temporary investments, accounts receivable, unbilled revenues, short-term debt, accounts payable and accrued expenses, approximates the instruments' estimated fair values based on the instruments' short-term nature.

The estimated fair value of MMWEC's long-term financial instruments is as follows:

	2013		2012	
	(In Thousands)			
	Carrying Value	Estimated Fair Value	Carrying Value	Estimated Fair Value
Long-term debt, including current maturities and excluding premiums and discounts	\$ 225,280	\$ 236,577	\$ 284,005	\$ 303,994
Long-term investments held in restricted special funds	\$ 169,266	\$ 169,266	\$ 142,691	\$ 142,691
Nuclear Decommissioning Trust	\$ 88,686	\$ 88,686	\$ 77,105	\$ 77,105

The fair value of long-term financial instruments is estimated based on quoted market prices for the same or similar issues.

Assets and Liabilities

Cash and Investments

For purposes of the Statements of Cash Flows, cash equivalents are cash and investments having an original maturity of three months or less from the date of acquisition. Unrestricted cash and cash equivalents are presented within cash and temporary investments in the accompanying Statements of Net Position. Restricted cash and cash equivalents are presented within the current portion of restricted special funds in the accompanying Statements of Net Position.

MMWEC has adopted an investment policy, which is approved annually by MMWEC's Board of Directors as required by MMWEC's GBR. Although certain cash and temporary investment amounts used for power purchases and working capital requirements of MMWEC are not subject to the provisions of the GBR, they are subject to the provisions of the investment policy.

Massachusetts Municipal Wholesale Electric Company

Notes to Financial Statements

Years Ended December 31, 2013 and 2012

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND NATURE OF OPERATIONS...continued

Assets and Liabilities...continued

Cash and Investments...continued

Investments are stated at fair value, as defined under fair value measurements above. No investments are reported at amortized cost. Adjustments necessary to record investments at fair value are recorded in the Statements of Revenues, Expenses and Changes in Net Position as increases or decreases in investment income.

Through its investment policy, MMWEC is restricted to investing in certain types of securities and investments, which are:

- a. Direct obligations of the United States of America
- b. Bonds, debentures, notes or other indebtedness issued by various federal agencies
- c. New housing authority bonds issued by public agencies or municipalities
- d. Bonds or notes issued by states and municipalities that are rated in one of the two highest rated categories by rating agencies
- e. Bank time deposits
- f. Repurchase agreements
- g. Federal funds or bankers acceptances
- h. Investment agreements

Accounts Receivable

Accounts receivable are stated at the amount management expects to collect from outstanding balances. Based on the validity of contracts and collection history, an allowance for doubtful accounts is not considered necessary. Should these circumstances change, an allowance for doubtful accounts would be provided for those accounts receivable considered to be uncollectible at the end of the year, and the bad debts would be written off against the allowance when identified.

Unbilled Revenue

Unbilled revenues are revenues that are not yet billed under the MMWEC Member and Participant agreements and other power arrangements and represent a portion of December services rendered that are collectible in January of the subsequent year.

Inventories

Fuel oil and spare parts inventories are recorded and accounted for by the average cost method. At December 31, 2013 and 2012, total fuel oil inventory was valued at \$22.2 million and \$9.0 million, respectively, and spare parts inventory amounted to \$12.8 million and \$13.8 million, respectively.

Massachusetts Municipal Wholesale Electric Company

Notes to Financial Statements

Years Ended December 31, 2013 and 2012

1. **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND NATURE OF OPERATIONS**...continued

Assets and Liabilities...continued

Nuclear Fuel

Nuclear fuel, net of amortization, includes MMWEC's ownership interest in spent nuclear fuel, fuel in reactor, in stock and in process for both Millstone Unit 3 and Seabrook Station. The cost of nuclear fuel is amortized to fuel used in electric generation for each nuclear unit based on the relationship of energy produced in the current period to total expected energy production for fuel in the reactor. A provision for fuel disposal costs is included in fuel used in electric generation based upon disposal contracts with the U.S. Department of Energy (DOE). In addition, fuel used in electric generation includes the annual assessment, under the Energy Policy Act of 1992, for the cost of decontamination and decommissioning of uranium enrichment plants operated by the DOE. MMWEC, along with all of the other joint owners of both Millstone Unit 3 and Seabrook Station, has filed claims against the DOE in the United States Court of Claims for partial breach of the disposal contracts with the DOE.

With respect to Seabrook Station, in 2009, MMWEC and the other Seabrook Station joint owners settled their claims against the DOE, with the U.S. Department of Justice (DOJ), who represented the DOE.

As the DOE has agreed in principle to settlements in regard to ongoing costs incurred related to the disposal contracts, accounts receivable related to these ongoing cost settlements have been recorded at December 31, 2013 and 2012 in the amount of \$1.3 million and \$925,000, respectively. During 2012, approximately \$521,000 of these costs were received by MMWEC and then disbursed to Seabrook Station Participants as a credit on billings. No amounts were received during 2013. MMWEC received \$1.0 million of these funds, in March 2014, which will be disbursed to Seabrook Station Participants in 2014.

Capital Assets – In Service

Capital assets – in service are generally defined by MMWEC as assets with an initial, individual cost of more than \$1,000 and an estimated useful life in excess of one year. Capital assets of MMWEC are recorded at cost at the date of acquisition. MMWEC capitalizes interest as an element of the cost of electric plant and nuclear fuel in process. The amount of interest capitalized is based on the cost of debt, including amortization of debt issuance costs and premiums, related to each Project, net of investment gains and losses, and interest income derived from unexpended restricted special funds. MMWEC capitalized interest costs of \$5,000 and \$120,000 for the years ended December 31, 2013 and 2012, respectively.

Massachusetts Municipal Wholesale Electric Company

Notes to Financial Statements

Years Ended December 31, 2013 and 2012

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND NATURE OF OPERATIONS...continued

Assets and Liabilities...continued

Capital Assets – In Service...continued

Provisions for depreciation are computed using the straight-line method based on estimated useful lives for the underlying assets at Stony Brook and the administrative and general office on MMWEC's site (Service). Seabrook Station, Millstone and Wyman are depreciated based on the group life basis. The lives are as follows:

Stony Brook

Building	25 years
Building improvements	20 years
Equipment	20-30 years
Computer equipment and vehicles	3-4 years

Service

Office equipment and software	3-8 years
-------------------------------	-----------

Other Generation Facilities

Seabrook Station	60 years
Millstone Unit 3	60 years
W.F. Wyman No. 4	51 years

NextEra Energy Seabrook, LLC, the lead owner of Seabrook Station, has filed for approval from the Nuclear Regulatory Commission to extend Seabrook Station's operating license for an additional 20 years to 2050. The estimated useful life of 60 years for Seabrook Station incorporates the assumption that the license extension will be granted.

Construction Work in Progress

Construction work in progress is stated at cost. Any internal costs that are capitalized are limited to those costs that can be directly identified with the design, engineering or construction of a specific Project and do not include any costs related to production, general corporate overhead or similar activities. Depreciation of these costs will commence once placed in service.

Massachusetts Municipal Wholesale Electric Company

Notes to Financial Statements

Years Ended December 31, 2013 and 2012

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND NATURE OF OPERATIONS...continued

Assets and Liabilities...continued

Nuclear Decommissioning Trust

As required by the Nuclear Regulatory Commission (NRC) and respective state statutes and/or regulations, as well as MMWEC's own determinations, MMWEC has funded trust funds maintained by external trustees to provide for the estimated future decommissioning activities of Millstone Unit 3 and Seabrook Station. The balances at December 31, 2013 and 2012 for Millstone Unit 3 were \$34.6 million and \$30.6 million, respectively, and for Seabrook Station were of \$54.1 million and \$46.5 million, respectively, and are stated at fair value and are included in noncurrent charges and amounts recoverable (payable) under terms of the PSAs on the Statements of Net Position. Decommissioning balances for the Seabrook Station include funds in the New Hampshire Nuclear Decommissioning Trust and in an escrow account into which payments are made by MMWEC as a funding assurance mechanism. Depending on future circumstances, the funds held in the escrow account will be placed either in the Decommissioning Trust Fund for Seabrook Station, or will be returned to MMWEC, per order of the Nuclear Decommissioning Financing Committee of the State of New Hampshire.

Amounts Recoverable (Payable) Under Terms of the Power Sales Agreements

Billings to Project Participants are structured to recover costs in accordance with the PSAs, which generally provide for billing debt service, operating expenses and reserve requirements. Expenses are reflected in the Statements of Revenues, Expenses and Changes in Net Position in accordance with GAAP. The timing difference between amounts billed and expensed is charged, or credited, to amounts recoverable (payable) under terms of the PSAs. Such amounts will be recovered through future billings or an expense will be recognized to offset credit balances. The principal differences include depreciation, fuel amortization, costs associated with canceled Projects (or assets abandoned within a Project), asset retirement obligations, cost of refinancing, billing for certain interest, reserves, net unrealized gains or losses on investments and other costs. Individual Projects have cumulative billings in excess of costs, which total \$451.9 million and \$388.0 million at December 31, 2013 and 2012, respectively. In accordance with the PSAs, these amounts have been offset in amounts payable under terms of the PSAs on the Statements of Net Position.

The December 31, 2013 and 2012 amounts payable balances of \$451.9 million and \$388.0 million, respectively, reflect the Statements of Revenues, Expenses and Changes in Net Position net increase of \$63.9 million and \$65.7 million for the years then ended.

Member and Participant Advances and Reserves

MMWEC maintains numerous operating reserves and advances from its Members and Project Participants in accordance with the PSAs, Power Purchase Agreements (PPAs) and other contractual arrangements. Member and Participant advances that are considered current liabilities, were \$123.4 million and \$114.9 million for the years ended December 31, 2013 and 2012, respectively. Other Member and Participant reserves for 2013 and 2012, which are considered long-term, were \$61.6 million and \$59.9 million, respectively.

Massachusetts Municipal Wholesale Electric Company

Notes to Financial Statements

Years Ended December 31, 2013 and 2012

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND NATURE OF OPERATIONS...continued

Assets and Liabilities...continued

Asset Retirement Obligations

MMWEC has identified certain asset retirement obligations (AROs), which are primarily associated with the decommissioning of MMWEC's ownership interest in Millstone Unit 3 and Seabrook Station and Wyman. There were no additional liabilities incurred nor revisions to the estimated cash flows during 2013 and 2012. A reconciliation of the beginning and ending aggregate carrying amount of AROs for the years ended December 31, 2013 and 2012 is as follows:

	<u>2013</u>	<u>2012</u>
	(In Thousands)	
Asset retirement obligations, beginning of year	\$ 125,037	\$ 119,084
Accretion expense	<u>6,250</u>	<u>5,953</u>
Asset retirement obligations, end of year	<u>\$ 131,287</u>	<u>\$ 125,037</u>

Accretion expense is included in other operating expenses in the Statements of Revenues, Expenses and Changes in Net Position. MMWEC's AROs, other than those associated with these assets, are not significant.

AROs are recorded at the present value of amounts expected to be paid and capitalized as part of the cost of the related tangible long-lived assets. In the absence of quoted market prices, MMWEC estimated the present value of AROs using techniques involving discounted cash flow analysis. Using such measurement techniques is dependent upon many subjective factors, including the selection of discount and cost escalation rates, identification of planned retirement activities and related cost estimates, and assertions of probability regarding the timing, nature and costs of such activities. Inputs and assumptions are based on the best information available at the time the estimates are made. However, estimates of future cash flows are highly uncertain by nature and may vary significantly from actual results.

Revenues and Expenses

Revenues

Operating revenues include electric sales for resale provided through MMWEC's bulk power supply program. Revenues consist, in significant part, of billings under the PSAs, PPAs, and other power arrangements. MMWEC also records service revenues by providing its Members with power supply planning and related services, which are billed pursuant to the MMWEC Service Agreement or the All-Requirements Bulk Power Sales Agreement. Revenues related to financing and other activities are reflected as non-operating.

Massachusetts Municipal Wholesale Electric Company

Notes to Financial Statements

Years Ended December 31, 2013 and 2012

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND NATURE OF OPERATIONS...continued

Revenues and Expenses...continued

Revenues...continued

Revenues are comprised of the following:

	<u>2013</u>	<u>2012</u>
	(In Thousands)	
Electric sales for resale	\$ 305,053	\$ 281,276
Service and other	<u>5,209</u>	<u>6,127</u>
	<u>\$ 310,262</u>	<u>\$ 287,403</u>

Taxes

Chapter 775 of the Massachusetts Acts of 1975 (the Act) specifically exempts MMWEC from paying any taxes upon its income, existence or franchise, and any revenues from the transfer or sale of bonds issued by MMWEC. Chapter 775 exempts real and personal property situated within the Commonwealth from property taxation. However, the Act requires MMWEC to pay an amount in lieu of property taxes with respect to MMWEC assets in Massachusetts to any governmental body authorized to levy local taxes in Massachusetts. MMWEC pays an amount in lieu of property taxes for its interest in the Stony Brook Peaking and Intermediate fossil-fuel burning plants located in Ludlow, Massachusetts.

MMWEC pays property taxes for its ownership interest in Millstone Unit 3 located in Waterford, Connecticut, Seabrook Station, which is mostly located in Seabrook, New Hampshire and Wyman Unit 4 fossil-fuel burning plant, which is located in Yarmouth, Maine. In addition, MMWEC pays taxes for electric generation related to Millstone Unit 3.

Restricted Funds

MMWEC's practice is to use restricted funds on hand before using unrestricted funds when an expense is incurred for purposes for which both restricted and unrestricted funds are available.

Net Position Classification

Net position is required to be classified into three components – net investment in capital assets; restricted; and unrestricted. These classifications are defined as follows:

Net investment in capital assets - consists of capital assets, net of accumulated depreciation and costs recoverable from future billings, reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt also should be included in this component of net position. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds is not included in the calculation of net investment in capital assets.

Massachusetts Municipal Wholesale Electric Company

Notes to Financial Statements

Years Ended December 31, 2013 and 2012

1. **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND NATURE OF OPERATIONS**...continued

Net Position Classification...continued

Restricted - consists of restricted assets, reduced by liabilities related to those assets, with constraints placed on their use either by a) external groups such as creditors (such as through debt covenants), contributors, or laws or regulations of other governments or b) law through constitutional provisions or enabling legislation.

Unrestricted - consists of the assets, deferred outflows of resources, liabilities and deferred inflows of resources that are not included in the net investment in capital assets or restricted component of net position.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes, and disclosure of contingent liabilities at the date of the financial statements. Estimates are used for, but not limited to, the selection of the useful lives of capital assets, provision necessary for contingent liabilities, accrued expenses, asset retirement obligations and other similar charges. Management believes that the estimates utilized in preparing its financial statements are reasonable and prudent. Actual results could differ from these estimates.

Implementations of New Accounting Principles

In 2012 and 2013, MMWEC implemented the provisions of the following accounting principles:

GASB Statement No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements. This standard was created to incorporate into the GASB's authoritative literature certain accounting and financial reporting guidance that is included in pre-November 30, 1989 Financial Accounting Standards Board and American Institute of Certified Public Accountants pronouncements, which do not conflict with or contradict GASB pronouncements.

GASB Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources and Net Position. This statement amends the net asset reporting requirements in GASB Statement No. 34 and other pronouncements by incorporating deferred outflows of resources and deferred inflows of resources into the definitions of the required components of residual measure and by renaming that measure as net position, rather than net assets.

Management determined in 2013 that even though net position of MMWEC is \$0, it is appropriate to include the net position categories and related amounts. Net position of the previous period has been restated to conform with 2013 reporting.

Massachusetts Municipal Wholesale Electric Company

Notes to Financial Statements

Years Ended December 31, 2013 and 2012

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND NATURE OF OPERATIONS...continued

Implementations of New Accounting Principles...continued

In 2013, MMWEC implemented the provisions of GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities (GASB 65)*, which established accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities.

As a result of the adoption of GASB 65 certain prior year data has been revised to conform to the current year's presentation with no impact on net position. The following show the impacts to the Statements of Net Position and Statements of Revenues, Expenses and Changes in Net Position.

	As Previously Reported <u>2012</u>	Implementation of GASB 65	As Restated <u>2012</u>
Statement of Net Position Items Affected			
Unamortized debt issuance costs	\$ 1,892	\$ (1,892)	\$ -
Deferred gain on extinguishment of debt, net of amortization	-	2,462	2,462
Amounts payable under terms of the power sales agreement	392,410	(4,354)	388,056
Statement of Revenues, Expenses and Changes in Net Position Items Affected			
Amortization of debt issuance costs	(743)	743	-
Gain on extinguishment of long-term debt	(120)	120	-
Amortization of gain on extinguishment of debt	-	520	520
Debt issuance costs	-	(858)	(858)
Increase in amounts payable under terms of the power sales agreements	(65,130)	(525)	(65,655)

Years Ended December 31, 2013 and 2012

2. CASH AND INVESTMENTS...continued

Investments are stated at fair value as described earlier in fair value measurements policy in Note 1. Fair values are based on quoted market prices of identical or similar securities. No investments are reported at amortized cost. The difference between the bank and investment value and carrying value is due to outstanding checks and/or deposits in transit.

Custodial Credit Risk

Deposits

Custodial credit risk is the risk that, in the event of a financial institution failure, MMWEC's deposits may not be returned to MMWEC. Beginning December 31, 2010 and through December 31, 2012, noninterest bearing transaction accounts are fully insured by the Federal Deposit Insurance Corporation (FDIC), regardless of the balance of the account. Subsequent to December 31, 2012, the aggregate amount of noninterest bearing and interest bearing accounts are insured by the FDIC up to at least \$250,000. There was \$3.4 million and \$0 uninsured and uncollateralized bank balances subject to custodial credit risk at December 31, 2013 and 2012, respectively.

MMWEC's investment policy does not address custodial credit risk.

Investments

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, MMWEC will not be able to recover the value of its investment or collateral securities that are in the possession of the custodians.

At December 31, 2013 and 2012, all investments were held in MMWEC's name by custodians consisting of the Bond Fund Trustee (as defined in the GBR), or MMWEC's depository bank.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations.

As of December 31, 2013, MMWEC's investments were rated as follows:

<u>Investment Fair Value</u> (In Thousands)	<u>Standard & Poor's</u>	<u>Fitch Ratings</u>	<u>Moody's Investors Service</u>
\$ 219,597	AA+	AAA	Aaa
5,997	AA-	AA	Aa3
351	AA+	Not rated	Aa2
5,642	Not rated	Not rated	Not rated

Massachusetts Municipal Wholesale Electric Company

Notes to Financial Statements
Years Ended December 31, 2013 and 2012

2. CASH AND INVESTMENTS...continued

Credit Risk...continued

As of December 31, 2012, MMWEC's investments were rated as follows:

<u>Investment Fair Value</u> (In Thousands)	<u>Standard & Poor's</u>	<u>Fitch Ratings</u>	<u>Moody's Investors Service</u>
\$246,628	AA+	AAA	Aaa
751	AA	Not rated	Not rated
1,331	Not rated	Not rated	Aa2
1,996	AA	Not rated	Aa2

MMWEC's investment policy addresses credit risk by defining allowable investments and a maximum allocation to each asset class.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of MMWEC's investment in a single issuer.

At December 31, 2013 and 2012, MMWEC's investment portfolio was concentrated as follows:

<u>Issuer</u>	<u>Investment Type</u>	<u>Percentage of Portfolio</u>	
		<u>2013</u>	<u>2012</u>
Federal National Mortgage Assn.	U.S. Agency Securities	26.52%	24.01%
Federal Farm Credit Bank	U.S. Agency Securities	8.50%	11.25%
Federal Home Loan Bank	U.S. Agency Securities	12.89%	14.08%
Federal Home Loan Mortgage	U.S. Agency Securities	11.56%	2.19%
Municipal Bond Anticipation Notes	Municipal Bonds	5.54%	1.61%

MMWEC's investment policy minimizes concentration of credit risk in a single issuer by diversification of investment types using the following maximum limits, which are established for MMWEC's total portfolio at December 31, 2013 and 2012, as follows:

Repurchase Agreements	10%
Certificates of Deposits	10%
U.S. Treasury Securities	100%
U.S. Agencies	65%
Municipal Securities	20%

Deviation from the approved portfolio limits requires written authorization and approval from the MMWEC Board of Directors.

Massachusetts Municipal Wholesale Electric Company

Notes to Financial Statements

Years Ended December 31, 2013 and 2012

2. CASH AND INVESTMENTS...continued

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment.

At December 31, 2013, the maturities of MMWEC's investments were as follows:

<u>Investment Type</u>	<u>Fair Value</u>	<u>Maturity In Years</u>		
		<u>Less than 1</u>	<u>1 – 5</u>	<u>Over 5</u>
		(In Thousands)		
U.S. Treasury Securities	\$ 78,107	\$ 43,713	\$ 31,881	\$ 2,513
U.S. Agency Securities	140,002	41,594	84,942	13,466
Municipal Bonds	13,025	5,642	7,383	-
Money Market Funds	453	453	-	-
Totals	<u>\$ 231,587</u>	<u>\$ 91,402</u>	<u>\$ 124,206</u>	<u>\$ 15,979</u>

At December 31, 2012, MMWEC's investments were as follows:

<u>Investment Type</u>	<u>Fair Value</u>	<u>Maturity In Years</u>		
		<u>Less than 1</u>	<u>1 – 5</u>	<u>Over 5</u>
		(In Thousands)		
U.S. Treasury Securities	\$ 110,557	\$ 75,000	\$ 32,789	\$ 2,768
U.S. Agency Securities	134,706	71,274	33,380	30,052
Municipal Bonds	4,078	4,078	-	-
Money Market Funds	1,366	1,366	-	-
Totals	<u>\$ 250,707</u>	<u>\$ 151,718</u>	<u>\$ 66,169</u>	<u>\$ 32,820</u>

MMWEC's investment policy specifies that MMWEC shall seek to maximize the return on investments consistent with requirements for safety, minimization of risk and liquidity. Monies will not be invested for terms in excess of the projected use of funds nor exceed an average life of ten years.

For the years ended December 31, 2013 and 2012, net unrealized gains on investments totaled \$5.1 million and \$3.2 million, respectively. The net unrealized gains are excluded from operating revenue and are reported within investment income on the Statements of Revenues, Expenses and Changes in Net Position.

Massachusetts Municipal Wholesale Electric Company

Notes to Financial Statements

Years Ended December 31, 2013 and 2012

2. CASH AND INVESTMENTS...continued

Interest Rate Risk...continued

During the years ended December 31, 2013 and 2012, investment income consisted of interest income, realized gains/(losses) and unrealized gains/(losses) as follows:

	<u>2013</u>	<u>2012</u>
	(In Thousands)	
Interest income:		
Restricted funds	\$ 1,880	\$ 1,212
Cash and temporary investments	224	501
Decommissioning funds	<u>1,579</u>	<u>2,273</u>
Total interest income	<u>3,683</u>	<u>3,986</u>
Realized gains:		
Restricted funds	101	512
Cash and temporary investments	40	8
Decommissioning funds	<u>22</u>	<u>181</u>
Net realized gains	<u>163</u>	<u>701</u>
Unrealized gains (losses):		
Restricted funds	(2,737)	(528)
Cash and temporary investments	(593)	(198)
Decommissioning funds	<u>8,383</u>	<u>3,932</u>
Net unrealized gains	<u>5,053</u>	<u>3,206</u>
Total investment income	<u>\$ 8,899</u>	<u>\$ 7,893</u>

3. SPECIAL FUNDS/RESTRICTED ASSETS

Mandatory segregations of assets are presented as special funds. Such segregations are required by bond agreements and other external parties.

Massachusetts Municipal Wholesale Electric Company

Notes to Financial Statements

Years Ended December 31, 2013 and 2012

3. SPECIAL FUNDS/RESTRICTED ASSETS...continued

Numerous special funds are required by the GBR pursuant to which MMWEC issued its long-term debt. The special funds are invested in accordance with the provisions of the GBR. Certain working capital and other funds are not mandated by the GBR; however, they are invested in accordance with the provisions of the investment policy under the GBR. The restricted net position is less than the total restricted funds shown below as the advances collected from participants are in excess of the related restricted funds. The composition of special funds is as follows:

<u>Fund</u>	<u>2013</u>	<u>2012</u>
	(In Thousands)	
Bond Fund Interest, Principal and Retirement Accounts to pay principal and interest on bonds	\$ 33,579	\$ 35,182
Bond Fund Reserve Account set at the maximum annual interest obligation to make up any deficiencies in the Bond Fund Interest, Principal and Retirement Account	38,643	39,487
Reserve and Contingency Fund to make up deficiencies in the Bond Funds and pay for repairs and extraordinary costs	23,746	24,269
Revenue Fund to receive revenues and disburse them to the Bond Funds and other funds	56,078	57,874
Working Capital Funds to maintain funds to cover operating expenses	22,111	25,946
Capital Reserve Fund to pay Nuclear Capital Expenditures	5,832	4,483
Funds obtained from terminated power purchase contract	9,226	9,359
Other Funds for indemnification or purchase of insurance, funds contributed for an agreement where MMWEC acts as agent and long-term investments for the Peaking Project and fuel line of credit	<u>34,320</u>	<u>26,264</u>
Restricted Special Funds and Interest Receivable	223,535	222,864
Less - current portion	(53,784)	(79,787)
Interest receivable	<u>(485)</u>	<u>(386)</u>
Total Restricted Special Funds, Long-Term	<u>\$ 169,266</u>	<u>\$ 142,691</u>

For financial reporting purposes, interest receivable has been disclosed separately on the Statements of Net Position.

A summary of changes in nuclear fuel for 2013 and 2012 is as follows:

Year	Balance at January 1,	Additions	Deletions	Amortization	Balance at December 31,
	(In Thousands)				
2013	<u>\$ 29,258</u>	<u>\$ 11,020</u>	<u>\$ (1,389)</u>	<u>\$ (12,049)</u>	<u>\$ 26,840</u>
2012	<u>\$ 32,809</u>	<u>\$ 6,403</u>	<u>\$ -</u>	<u>\$ (9,954)</u>	<u>\$ 29,258</u>

5. SHORT-TERM DEBT

MMWEC maintains a \$25 million loan facility which allows for borrowings by MMWEC to finance, temporarily, certain power purchases made by MMWEC for resale to the Members and other municipal systems under various power contracts between MMWEC and the municipal systems (Power Contracts). Borrowings attributable to a Power Contract under this loan facility are secured by the following: a lien on and/or security interest in all proceeds of any loans prior to disbursement by MMWEC, all amounts payable to MMWEC by the Power Contract Participants under the Power Contract, and earnings from MMWEC's temporary investments of such proceeds and amounts payable. The amount payable by a Power Contract Participant with respect to a Power Contract is limited to the amount allocated to that Participant.

Massachusetts Municipal Wholesale Electric Company

Notes to Financial Statements

Years Ended December 31, 2013 and 2012

5. SHORT-TERM DEBT...continued

Borrowings outstanding under the loan facility were \$944,000 and \$862,000 as of December 31, 2013 and 2012, respectively. During 2013 and 2012, the maximum outstanding balance under the line of credit was \$1.4 million and \$1.2 million, respectively. The interest rate for the borrowings under this line of credit after December 31, 2013 is at MMWEC's election prior to the last day of any interest period of either the LIBOR rate plus 1.50% per annum, or at a variable rate selected by MMWEC, which is either the prime rate or the BBA LIBOR Daily Floating Rate plus 1.50%. At December 31, 2013, the outstanding borrowings are at 1.669% (LIBOR plus 1.50%). In addition, a commitment fee of .250% per annum is charged on the unused portion of the loan facility based on the average daily principal amount of the borrowing outstanding. This loan facility expires April 24, 2014. MMWEC has historically renewed this line of credit annually.

MMWEC also maintains a \$15 million revolving line of credit for the purpose of financing purchases of fuel oil and selling such fuel oil from the Stony Brook Fuel Oil Project to the Intermediate and Peaking Projects. Borrowings under this line of credit are secured by the following: a lien on and/or security interest in all proceeds of any borrowings prior to disbursement by MMWEC, all amounts payable by the Intermediate and Peaking Projects to the Stony Brook Fuel Oil Project for fuel oil, and all earnings from MMWEC's investments of any such proceeds and amounts payable to the bank. Borrowings outstanding under the loan facility were \$4.1 million and \$0 as of December 31, 2013 and 2012 respectively. During 2013 and 2012, the maximum outstanding balance under the line of credit was \$4.1 million and \$0 respectively. The interest rate for the borrowings under this line of credit after December 31, 2013 is at MMWEC's election prior to the last day of any interest period of either the LIBOR rate plus 1.50% per annum, or at a variable rate selected by MMWEC, which is either the prime rate or the BBA LIBOR Daily Floating Rate plus 1.50%. If no such selection is made, the variable rate is in effect. At December 31, 2013, the outstanding borrowings are at 1.669% (LIBOR plus 1.50%). In addition, a commitment fee of .250% per annum is charged on the unused portion of the loan facility based on the average daily principal amount of the borrowing outstanding. This line of credit expires April 24, 2014. MMWEC has historically renewed this line of credit annually.

The following short-term debt activity occurred in 2013 and 2012:

<u>Year</u>	<u>Balance</u> <u>1/1</u>	<u>Additions</u>	<u>Payments</u>	<u>Balance</u> <u>12/31</u>
		(In Thousands)		
2013	\$ 862	\$ 5,705	\$ (1,478)	\$ 5,089
2012	\$ 811	\$ 1,569	\$ (1,518)	\$ 862

6. LONG-TERM DEBT

General Bond Resolution and Power Supply System Revenue Bonds

MMWEC issued separate issues of Bonds for each Project, which are payable solely from, and secured solely by, the revenues derived from the Project to which such issue relates, plus available funds pledged under the GBR for the Bonds of such issues. The revenues derived from each Project are used solely to provide for the payment of the Bonds of any Bond issue relating to such Project, and to pay MMWEC's cost of owning and operating such Project, and are not used to provide for the payment of the Bonds of any Bond issue relating to any other Project.

Massachusetts Municipal Wholesale Electric Company

Notes to Financial Statements

Years Ended December 31, 2013 and 2012

6. LONG-TERM DEBT...continued

General Bond Resolution and Power Supply System Revenue Bonds...continued

Pursuant to all of the Project PSAs, each Project Participant is obligated to pay its share of the actual costs relating to the Project's generating units, and its share of all principal, premium and interest associated with the Bonds for the Projects in which the Project Participant has a PSA, and for which the Project Participant is obligated to set rates at levels sufficient to pay such costs. These obligations are not contingent upon the operational status of the Project's units.

MMWEC's issuance of debt, other than obligations with a maturity of less than one year, requires authorization by the Massachusetts Department of Public Utilities.

Series 2012A Revenue Bonds

On January 26, 2012, MMWEC issued and sold Power Supply Project Revenue Bonds, Series 2012A for Nuclear Mix No. 1, Nuclear Project No. 3, Nuclear Project No. 4, Nuclear Project No. 5 and Project No. 6 (Series 2012A Bonds) in the face amount of \$164.8 million. The Series 2012A Bonds were issued at a premium of \$14.3 million which is being amortized over the life of the bonds using the effective interest method. The Series 2012A Bonds are payable from and secured by the revenues derived from Nuclear Mix No. 1, Nuclear Project No. 3, Nuclear Project No. 4, Nuclear Project No. 5 and Project No. 6.

The Series 2012A bond proceeds were used to redeem the Series A Bonds prior to maturity at the option of MMWEC at a redemption price of \$218.0 million, which was equal to the principal amount of \$214.1 million plus accrued interest of \$1.7 million and premiums of \$2.2 million. The gain on extinguishment of debt is equal to the acceleration of the amortization of the unamortized premiums of \$2.6 million related to the Series A Bonds redeemed, offset by the premiums on the redeemed issues.

MMWEC has capitalized the gain on extinguishment of debt, which is being amortized using the effective interest rate method over the terms of the underlying bond agreements.

Interest on the Series 2012A is payable in semi-annual installments beginning July 1, 2012 and on January 1 and July 1 for each year thereafter. The Series 2012A Bonds bear interest at a fixed rate ranging from 3.0% to 5.0% for the various issues.

In 2012, MMWEC paid \$858,000 of debt issuance costs in connection with the issuance of the Series 2012A Bonds, which were expensed in the period paid.

Series 2011 Revenue Bonds

Interest on the Series 2011 is payable in semi-annual installments on January 1 and July 1. The Series 2011 Bonds bear interest at a fixed rate ranging from 3.0% to 5.0% for the various issues.

Massachusetts Municipal Wholesale Electric Company

Notes to Financial Statements
Years Ended December 31, 2013 and 2012

6. LONG-TERM DEBT...continued

General Bond Resolution and Power Supply System Revenue Bonds...continued

Series One Revenue Bonds

The Series One Bonds of each issue are subject to redemption at the option of MMWEC, in whole or in part, at a redemption price of 100% of the principal amount.

Power Supply System Revenue Bonds

At December 31, 2013 and 2012, bonds payable on the accompanying Statement of Net Position consist of serial and variable-rate bonds dated November 2001, June 2011 and January 2012 and are comprised of the following issues:

<u>Issue</u>	<u>Net Interest Cost</u>	<u>December 31,</u>	
		<u>2013</u>	<u>2012</u>

6. LONG-TERM DEBT...continued

General Bond Resolution...continued

Power Supply System Revenue Bonds...continued

Future interest requirements on variable rate debt were calculated using 4.5% per annum.

The interest rates on the Series One variable rate Bonds may be converted, at the option of MMWEC, to a daily, weekly, flexible, term or fixed mode. The realized interest rate on the Series One variable rate Bonds during 2013 and 2012 was .12% and .20%, respectively.

Financial and credit market disruption in 2008 resulted in failed auctions for MMWEC Series One variable rate debt. MMWEC Series One variable rate bonds have subsequently priced at the Maximum Auction Rate. The Maximum Auction Rate means, as of any Auction Date, the product of the Index multiplied by the Auction Mode Multiple. The index on any Auction Date with respect to the Series One Bonds of a particular Issue in any Auction Period of 35 days or less will be the Seven-Day "AA" Composite Commercial Paper Rate on such date. The Auction Mode Multiple, means, as of any Auction Date and with respect to the Series One Bonds of a particular Issue, the Percentage of Index determined based on the prevailing Rating of the Series One Bonds.

At December 31, 2013, the following are the detail terms of all variable rate debt:

<u>Project</u>	<u>2013 Average Auction Rate</u>	<u>Auction Mode</u>
Nuclear Mix No. 1, Series One	.12%	Weekly
Nuclear Project No. 3, Series One	.12%	Weekly
Nuclear Project No. 4, Series One	.12%	Daily
Nuclear Project No. 5, Series One	.12%	Weekly
Project No. 6, Series One	.12%	Daily

The following summarizes changes in long-term debt at face value for 2013 and 2012:

<u>Year</u>	<u>Balance January 1,</u>	<u>Additions</u>	<u>Payments</u> (In Thousands)	<u>Premium at Redemption</u>	<u>Balance December 31,</u>
2013	<u>\$ 284,005</u>	<u>\$ -</u>	<u>\$ (58,725)</u>	<u>\$ -</u>	<u>\$ 225,280</u>
2012	<u>\$ 358,420</u>	<u>\$ 164,765</u>	<u>\$ (241,321)</u>	<u>\$ 2,141</u>	<u>\$ 284,005</u>

Interest paid for long-term debt during 2013 and 2012 was \$11.9 million and \$16.1 million, respectively.

Massachusetts Municipal Wholesale Electric Company

Notes to Financial Statements

Years Ended December 31, 2013 and 2012

7. LABOR AGREEMENTS

At December 31, 2013, approximately 28% of MMWEC's 89 employees work under collective bargaining agreements, whose existing labor agreements expires on December 31, 2014. At December 31, 2012, approximately 27% of MMWEC's 88 employees worked under the collective bargaining agreements.

8. BENEFIT PLANS

The Massachusetts Municipal Wholesale Electric Company Pension Plans (Plans) are two single-employer, defined benefit pension plans administered by MMWEC. One plan covers union employees (union plan) and the other plan covers non-union employees (administration plan). All full-time active administration employees hired before December 1, 2006, and all full-time active union employees hired before January 1, 2008 are covered by their respective plans. The Plans provide a defined benefit to employees based on years of service and average earnings. The Plans provide retirement, disability, and death benefits to plan members and beneficiaries. Administrative or union employees hired after these dates qualify for a Defined Contribution plan as described below. Certain other financial information concerning the plans, in addition to the information contained here, is provided annually to plan participants. No standalone financial statements are issued for the Plans.

All contributions to the plans are authorized by the Board of Directors and made by MMWEC. Since 2008, MMWEC has made additional contributions in excess of the required contributions with the goal of establishing a funding ratio of approximately 100%.

The annual pension cost and net pension asset for both plans as of and for the years ended December 31, 2013 and 2012 are as follows:

	Administration Plan		Union Plan	
	2013	2012	2013	2012
	(In Thousands)			
Annual required contribution	\$ 290	\$ 315	\$ 173	\$ 154
Interest on net pension obligation	(531)	(531)	(132)	(137)
Adjustment to annual required contribution	612	599	152	155
Annual pension cost	<u>371</u>	<u>383</u>	<u>193</u>	<u>172</u>
Contributions made	<u>(895)</u>	<u>(891)</u>	<u>(223)</u>	<u>(226)</u>
Increase in net pension asset	(524)	(508)	(30)	(54)
Net pension asset beginning of year	<u>(7,587)</u>	<u>(7,079)</u>	<u>(1,891)</u>	<u>(1,837)</u>
Net pension asset end of year	<u>\$ (8,111)</u>	<u>\$ (7,587)</u>	<u>\$ (1,921)</u>	<u>\$ (1,891)</u>

The net pension asset is included in other noncurrent charges on the Statements of Net Position.

Massachusetts Municipal Wholesale Electric Company

Notes to Financial Statements
Years Ended December 31, 2013 and 2012

8. BENEFIT PLANS...continued

The annual required contribution for the current year was determined as part of the January 1, 2013 actuarial valuation using the entry age normal with frozen initial liability cost method. The actuarial assumptions included a 7.0% investment rate of return and a 3% projected salary increase. The unfunded actuarial liability is being amortized as a level dollar amount on a thirty year open basis. The remaining amortization period at December 31, 2013 was 30 years.

Three-year trend information for MMWEC's pension cost and contributions is as follows:

	<u>Annual Pension Cost (APC)</u>	<u>Employer Contribution</u>	<u>Percentage of APC Contributed</u>	<u>Net Pension Asset</u>
	(In Thousands)			
<u>Administration Plan</u>				
2011	\$ 347	\$ 881	253.9%	\$ 7,079
2012	383	891	232.6%	7,587
2013	371	895	241.2%	8,111
<u>Union Plan</u>				
2011	\$ 147	\$ 236	160.5%	\$ 1,837
2012	172	226	131.4%	1,891
2013	193	223	115.5%	1,921

All MMWEC employees are eligible to make a voluntary contribution in accordance with prescribed annual dollar limits to a deferred compensation plan sponsored by the Commonwealth of Massachusetts. The deferred compensation plan is maintained pursuant to Section 457(b) of the Internal Revenue Code and the General Laws of Massachusetts.

A schedule of funding progress for the Plans is as follows:

<u>Actuarial Valuation Date</u>	<u>Actuarial Value of Assets (a)</u>	<u>Actuarial Accrued Liability (AAL) - Entry Age (b)</u>	<u>Unfunded AAL (UAAL) (b - a)</u>	<u>Funded Ratio (a / b)</u>	<u>Covered Payroll (c)</u>	<u>UAAL as a Percentage of Covered Payroll ((b-a) / c)</u>
Administrative Plan						
1/1/2012	16,390	16,738	348	97.9%	3,248	10.7%
1/1/2013	18,451	19,302	851	95.6%	3,042	28.0%
Union Plan						
1/1/2012	5,033	5,026	(7)	100.1%	1,469	-0.5%
1/1/2013	5,072	5,414	342	93.7%	1,343	25.5%

The schedule of funding progress, presented as Required Supplementary Information following the Notes to the Financial Statements, presents additional multiyear trend information about whether the actuarial value of assets of each plan are increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Massachusetts Municipal Wholesale Electric Company

Notes to Financial Statements

Years Ended December 31, 2013 and 2012

8. BENEFIT PLANS...continued

In 2007, MMWEC established a defined contribution (DC) pension plan in compliance with Section 401 (a) of the Internal Revenue Code for non-union employees hired after December 1, 2006 and for union employees hired after January 1, 2008. Thereafter, all new employees are no longer eligible to participate in MMWEC Defined Benefit plans. Under the DC plan, MMWEC contributes 6% of an employee's base salary and matches 50% of employee contributions to the defined contribution plan up to a maximum employee contribution of 6%. For the years ended December 31, 2013 and December 31, 2012, MMWEC contributed \$174,000 and \$151,000 and the employees contributed \$16,000 and \$12,000, respectively.

MMWEC contributes to an employee savings plan administered by a mutual insurance company. All eligible full-time employees meeting the service and eligibility requirements participate in this plan. Under the provisions of the plan, MMWEC's contributions are vested immediately. For the years ended December 31, 2013 and 2012, MMWEC contributed \$88,000 and \$90,000, respectively, and the employees contributed \$129,000 and \$132,000, respectively. All employees eligible or participating in the DC pension plan established in 2007 are not eligible to participate in the employee savings plan.

Benefit provisions of all plans are determined and authorized by the MMWEC Board of Directors.

9. PROJECT JOINT OWNERSHIP AGREEMENTS

MMWEC's power supply capacity includes ownership interests in the Stony Brook Peaking and Stony Brook Intermediate Units, both of which MMWEC operates. MMWEC is a nonoperating joint owner in the W.F. Wyman Unit No. 4, Millstone Unit 3 and Seabrook Station. Electric plant in service and construction work in progress also includes assets related to MMWEC's service company operations, which totaled \$5.6 million and \$5.3 million in 2013 and 2012, respectively. The following is a summary of the balances by Project included in electric plant in service and construction work in progress, as well as MMWEC's share of capability in megawatts (MW).

Projects	Facility and MMWEC Share of Capability in MW	Amount as of December 31,		
		2013	2012	
(In Thousands)				
Peaking Project	Stony Brook	172.7	\$ 58,643	\$ 58,638
Intermediate Project	Stony Brook	321.3	175,924	172,073
Wyman Project	W.F. Wyman No. 4	22.4	8,728	8,725
Nuclear Project No. 3	Millstone Unit 3	39.5	145,173	143,861
Nuclear Mix No. 1	Millstone Unit 3	19.8	59,103	58,446
Nuclear Mix No. 1	Seabrook Station	2.0	10,165	10,087
Nuclear Project No. 4	Seabrook Station	54.0	300,875	298,796
Nuclear Project No. 5	Seabrook Station	13.7	81,478	80,952
Project No. 6	Seabrook Station	74.7	558,811	555,932
Totals			\$ 1,398,900	\$ 1,387,510

Massachusetts Municipal Wholesale Electric Company

Notes to Financial Statements

Years Ended December 31, 2013 and 2012

10. RELATED PARTY TRANSACTIONS

MMWEC, together with Massachusetts municipal utility systems, has formed six cooperatives under Massachusetts General Laws to conduct business for the mutual benefit of the members of the cooperatives. The following is a summary of each Cooperative and the associated Cooperative members and purpose for each Cooperative.

<u>Cooperative Name</u>	<u>Other Cooperative Members</u>	<u>Year Founded</u>	<u>Cooperative Purpose</u>
Southwest Cooperative Corporation	Westfield Gas & Electric Light Department (WG&E)	2006	Financing, constructing and operating a natural gas pipeline to provide natural gas transportation service to WG&E
Massachusetts Municipal Light Department Wind Energy Cooperative Corporation	Princeton Municipal Light Department and Templeton Municipal Light Department	2007	Financing, owning, constructing and operating wind generation facilities located in the town of Princeton & Templeton
Berkshire Wind Power Cooperative Corporation	Fourteen municipal light departments	2008	Financing, owning, constructing and operating wind turbines and ancillary equipment located in Hancock and Lanesborough, Massachusetts
Massachusetts Municipal Light Department Solar Energy Cooperative Corporation	West Boylston Municipal Light Plant	2008	Financing, owning, constructing and operating a solar energy production facility in West Boylston, Massachusetts
Wakefield Municipal Cooperative Corporation	Wakefield Municipal Gas & Light Department	2012	Financing, constructing, purchasing, owning, leasing, maintaining and operating real and personal property located in Wakefield
Massachusetts Clean Energy Cooperative Corporation	Holyoke Gas & Electric Department (HG&E)	2013	Purchasing, acquiring, generating, transforming, distributing, selling, reselling, supplying and providing energy, telecommunications, or any related products or service and financing, owning, leasing or otherwise acquiring, holding, using and improving interests therein for the benefit of HG&E

Massachusetts Municipal Wholesale Electric Company

Notes to Financial Statements

Years Ended December 31, 2013 and 2012

10. RELATED PARTY TRANSACTIONS...continued

Pursuant to contracts, MMWEC provides accounting, financial, power supply and administrative services to all six of these cooperatives. As such, although MMWEC is a member of each cooperative and has one representative on the Board of each cooperative, MMWEC has no rights to the entities' assets nor has management oversight of the six cooperatives. Thus, the entities are not required to be reported as component units of MMWEC under rules established GASB 61, *The Financial Reporting Entity*.

MMWEC billed a total of \$500,000 and \$986,000 for MMWEC services and outside professional services during 2013 and 2012, respectively, for all cooperatives. At December 31, 2013 and 2012, \$158,000 and \$416,000 was due to MMWEC from all cooperatives. There were no amounts due to the cooperatives from MMWEC at December 31, 2013 or 2012.

11. CONTRACTS AND COMMITMENTS

Long-Term Contracts – Power Purchases

MMWEC entered into agreements for participation in the transmission interconnection between New England utilities and the Hydro-Quebec electric system near Sherbrooke, Quebec (Phase I), which began commercial operation in October 1986. The New England portion of the interconnection was constructed at a total cost of approximately \$140 million, of which 3.65% (or initially \$5 million) was MMWEC's share to support Phase I. In 1990, MMWEC's participation share in Phase I changed to 3.45% (or initially \$4.8 million). MMWEC also entered into similar agreements for participation in the interconnection between New England utilities and the Hydro-Quebec electric system. This agreement is for the expansion of the Hydro-Quebec interconnection (Phase II), which went into commercial operation in November 1990. MMWEC's Phase II equity investment is approximately 0.6% (or initially \$3.3 million). MMWEC has corresponding agreements with certain of its Members and another utility to recover MMWEC's share of the costs associated with the Phase II interconnection. Beginning in 1995, capital refunds from Phase II have been received, reducing MMWEC's total equity investment. The remaining equity balance of \$35,000 and \$59,000 at December 31, 2013 and 2012, respectively, is included in other noncurrent charges on the Statement of Net Position.

On a limited basis, MMWEC may enter into agreements providing financial assurance to third parties. At December 31, 2013 and 2012, outstanding guarantees consisted of \$607,000 and \$105,000, respectively, related to its equity interest in the Hydro-Quebec transmission companies. Management believes that the likelihood MMWEC would be required to perform or otherwise incur any significant losses associated with this guarantee is remote.

In 1990, MMWEC entered into a PPA, for a long-term purchase of 21.2 MW (or 7.86%) of the output of an independent power producer (MASSPOWER). In 2005, MMWEC filed a complaint against MASSPOWER alleging that MASSPOWER breached the PPA by ceasing to operate as a dispatchable/baseload unit. In February 2007, the Superior Court, after trial, entered judgment for MASSPOWER. MMWEC appealed that judgment to the Massachusetts Appeals Court, which, in 2008 affirmed the Superior Court's judgment in favor of MASSPOWER.

Massachusetts Municipal Wholesale Electric Company

Notes to Financial Statements

Years Ended December 31, 2013 and 2012

11. **CONTRACTS AND COMMITMENTS**...continued

Long-Term Contracts – Power Purchases...continued

In May 2007, MMWEC exercised its “must run” right under the PPA, which permits MMWEC to request MASSPOWER to schedule the facility to operate on a must run basis under certain conditions. MASSPOWER refused. MMWEC terminated the PPA for material breach thereof. In July 2007, MASSPOWER sued MMWEC alleging among other claims, breach of the PPA and sought damages equal to the cost associated with the remainder of the PPA term and treble damages.

After hearing cross-motions for summary judgment, on February 13, 2008, the court entered judgment allowing MMWEC’s motion for summary judgment and denying MASSPOWER’S cross motion. On the same day, MASSPOWER appealed the judgment. In November 2008, the Appeals Court held that the Superior Court’s grant of summary judgment was improper as genuine issues of material fact existed. Accordingly, the Appeals Court remanded to the Superior Court for trial MASSPOWER’s claim that MMWEC breached the PPA by terminating it improperly. The Appeals Court also remanded for trial MASSPOWER’s claims that MMWEC violated the implied covenant of good faith and fair dealing and Massachusetts General Laws Chapter 93A, relative to unfair and deceptive trade practices. Trial of MASSPOWER’s claims was held from March 1, 2010 through March 26, 2010, with closing arguments presented on July 14, 2010.

On January 31, 2011, the Superior Court issued its Findings of Fact, Rulings of Law and Order for Judgment. The Superior Court decided in MMWEC’s favor on all counts, except for a portion of one count. The court did hold that MASSPOWER is entitled to reasonable attorney’s fees and costs incurred in prosecuting its Chapter 93A claim. Other than the reasonable attorney’s fees and costs that MASSPOWER may recover, MASSPOWER is not entitled to any further damages with respect to this matter. MASSPOWER filed a notice of appeal of the January 31, 2011 Superior Court decision.

As of March 30, 2012, MASSPOWER (through an assignee) and MMWEC executed a settlement agreement, which provided that MASSPOWER and MMWEC waive, release and discharge each other and their respective officers, directors, members, managers, participants, partners, parents, subsidiaries, affiliates, agents and attorneys from any and all existing claims and claims arising from the PPA, whether such claim is based on contract, tort, strict liability, statute, common law or any other basis. Under the terms of the agreement, MMWEC made a payment to MASSPOWER in the amount of \$3 million on March 30, 2012 and MASSPOWER withdrew its appeal.

In 2013, MMWEC entered into a twenty-year power purchase agreement with Franklin Power LLC, Greggs Falls Hydroelectric Associates LP, Pembroke Hydro Associates LP and HDI Associates I Partnership for 100% of the output of four hydroelectric generating facilities in New Hampshire with a combined nominal rating at 9.13 MW, effective January 1, 2014. This resource has been subscribed to by thirteen Members.

Also, in 2013, MMWEC entered into a twenty-five year power purchase agreement with Hancock Wind LLC for 73.5% of the output of a wind generating facility in Hancock County, Maine (Hancock Facility) with a nominal rating at 51 MW. The Hancock Facility is expected to achieve commercial operations on or before December 31, 2015. This resource has been subscribed to by seventeen Members.

Massachusetts Municipal Wholesale Electric Company

Notes to Financial Statements

Years Ended December 31, 2013 and 2012

11. CONTRACTS AND COMMITMENTS...continued

Claims and Judgments

During 2012 and 2011, MMWEC received invoices totaling \$0.6 million and \$3.5 million, respectively, (cumulatively \$4.1 million), from North Atlantic Energy Services Corporation (NAESCO) for costs allegedly related to pensions as associated with NAESCO's former employees at Seabrook. The calculation and basis of those invoices were unclear to MMWEC. MMWEC conveyed its questions to NAESCO. On May 29, 2013, NAESCO (and another Northeast Utilities subsidiary) filed a demand for arbitration against MMWEC seeking payment of those invoices and other pension related costs not yet billed, plus interest, attorneys' fees and arbitration costs. The arbitration is currently in the discovery phase. MMWEC is unable to estimate the amount of Seabrook-related pension expense that may be owed to NAESCO, but MMWEC believes that the amount of these costs, if any, will not be material and that the likelihood MMWEC would be required to pay NAESCO is not probable. MMWEC has not recorded a liability for these potential expenses at December 31, 2013.

In 2009, seven municipal light departments that are Participants under PSAs with MMWEC (Claimants) submitted a demand for arbitration of a dispute relating to charges under the PSAs. MMWEC and the Claimants executed a settlement agreement dated as of July 18, 2013, which provided, in part, that, with the exception of the charges contained in the Monthly Power Costs (as defined in the PSAs), neither party shall pay damages, attorneys' fees or costs to the other party as part of or resulting from the dispute. On August 13, 2013, MMWEC and the Claimants executed and forwarded to the arbitrator a stipulation dismissal of the action with prejudice.

In 2013, a complaint was filed by the owner of property for which MMWEC had recorded an Order of Taking in 2012. The owner is seeking an assessment of damages in connection with taking. To date, no dollar amount demand has been asserted, and MMWEC has not recorded a liability for these potential expenses at December 31, 2013. The assessment of damages, if any, would be collectible under MMWEC's service agreement with the cooperative for which MMWEC recorded the Order of Taking.

MMWEC is involved in various legal actions. Management believes that the ultimate resolution of litigation in which MMWEC is currently involved will not have a material, adverse effect on the financial position of MMWEC.

12. RISK MANAGEMENT

MMWEC is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors and omissions; workers compensation; and health care of its employees. These risks are covered through the purchase of commercial insurance, with minimal deductibles. There were no settled claims in any of the past three years. There has been no material decrease in insurance coverage of MMWEC in the past year.

Massachusetts Municipal Wholesale Electric Company

Notes to Financial Statements

Years Ended December 31, 2013 and 2012

12. RISK MANAGEMENT...continued

Nuclear Insurance

The Price-Anderson Act (the Act), a federal statute, mandates an industry-wide program of liability insurance for nuclear facilities. The \$375 million primary layer of insurance for the liability has been purchased in the commercial insurance market. As adjusted for inflation in 2008, secondary coverage is to be provided through an assessment on each of the currently licensed nuclear units in the United States of approximately \$127 million, not to exceed \$19 million per incident in any year. The assessment is to be adjusted for inflation every five years. Under the Act, MMWEC's ownership interests in Millstone Unit 3 and Seabrook Station could result in a maximum assessment of approximately \$6.1 million and \$14.8 million, respectively, limited to payments of \$0.9 million and \$2.5 million per incident per year, respectively. Originally enacted in 1957, the Act has been renewed several times and in July 2005, Congress extended the Act until the end of 2025, as part of the Energy Policy Act of 2005.

Insurance has been purchased from Nuclear Electric Insurance Limited (NEIL) to cover the cost of repair, replacement, decontamination or premature decommissioning of utility property resulting from insured occurrences at Millstone Unit 3 and Seabrook Station. The NEIL insurance is subject to retroactive assessments if losses exceed the accumulated funds available to the insurer. MMWEC is potentially subject to a \$0.9 million and \$2.5 million assessment for its participation in Millstone Unit 3 and Seabrook Station, respectively, for excess property damage, decontamination and premature decommissioning.

13. CONCENTRATION OF CREDIT RISK / SIGNIFICANT CUSTOMERS

Credit risk represents the risk of loss that would occur if customers do not meet their financial obligations to MMWEC. Concentration of credit risk occurs when significant customers possess similar characteristics that would cause their ability to meet contractual obligations to be affected by the same events.

As of December 31, 2013, MMWEC has one municipal customer who is considered a significant customer, which accounted for approximately \$42.6 million (14%) of MMWEC revenues in 2013. In 2012, MMWEC had two municipal customers who were considered significant customers, which accounted for approximately \$39.0 million (14%) and \$27.9 million (10%) respectively of MMWEC revenues. As of December 31, 2013, one municipal customer had a significant account receivable balance of \$3.9 million (11%). At December 31, 2012, there were no customers with significant account receivable balances.

14. ENVIRONMENTAL AND OTHER ISSUES

Nothing has come to management's attention concerning any material pollution liability claims made during 2013 and 2012 or outstanding as of December 31, 2013 and 2012.

MMWEC has established a trust fund to enhance its Directors' and Officers' liability coverage. The purpose of the trust fund is to make available funds for the purchase of Directors' and Officers' liability insurance and/or as a supplement to insurance for indemnification of the Directors or Officers. At December 31, 2013 and 2012, MMWEC has \$10.9 million and \$11.4 million, respectively, recorded in restricted special funds related to the trust fund with a corresponding liability in the same amount, representing advances from Members.

Massachusetts Municipal Wholesale Electric Company

Notes to Financial Statements

Years Ended December 31, 2013 and 2012

14. ENVIRONMENTAL AND OTHER ISSUES...continued

MMWEC has a guaranty with ISO New England, Inc. (ISO-NE) with respect to certain MMWEC Members' financial assurance obligations to ISO-NE. These Members do not have credit ratings and MMWEC provides financial assurances for their transactions in ISO-NE. MMWEC's financial assurance is backed by the NEPEX Account Agreement between MMWEC and each of these Members. Pursuant to the NEPEX Account Agreement, each Member has an absolute and unconditional obligation to pay MMWEC for its respective ISO-NE transactions. Management believes that the likelihood MMWEC would be required to perform or otherwise incur any significant losses associated with this guarantee is remote.

15. SEGMENT INFORMATION

MMWEC issues separate revenue bonds for each Project, which are payable solely from, and secured solely by, the revenues derived from the Project to which such bond issue relates, plus available funds pledged under the GBR for the bonds of such issues. Each Project operates various electric generation facilities, as shown in Note 9 – Project Joint Ownership Agreements. Following is a summary of the financial information for each Project.

Debt Service Coverage Calculation
Years Ended December 31, 2013 and 2012

NET REVENUE AVAILABLE FOR DEBT SERVICE

In accordance with the provisions of MMWEC's GBR, MMWEC covenants that it shall fix, revise and collect rates, tolls, rents and other fees and charges sufficient to produce revenues to pay all Project operating and maintenance expenses, and principal, premium, if any, and interest on the Bonds. Revenues for each Project, which include applicable interest earnings from investments, are required to equal 1.10 times the annual debt service for each contract year ending June 30, after deduction of certain operating and maintenance expenses and exclusive of depreciation. As such, the balances included in the table below do not reflect December 31 balances. For the contract years ended June 30, 2013 and 2012, MMWEC met the GBR debt service coverage requirements for all of MMWEC's Projects.

	Contract Year Ended June 30,	
	<u>2013</u>	<u>2012</u>
Revenues	\$ 127,552	\$ 125,387
Other billings	-	-
Reserve and contingency fund billings	<u>7,522</u>	<u>7,522</u>
Total	135,074	132,909
Less – operating and maintenance expenses	<u>(55,463)</u>	<u>(50,066)</u>
Available revenues net of expenses	<u>\$ 79,611</u>	<u>\$ 82,843</u>
Debt service requirement	<u>\$ 72,114</u>	<u>\$ 75,340</u>
Coverage (110% required)	<u>110%</u>	<u>110%</u>
